

She prepared a very special present for me.

She gathered together all her strength and wrote her name on my heart.

She loved me so so much, that her love became imprinted in me forever. Love can do amazing things.

It is a seal of love. It says "Mum".

Thank You

How did Sammy's mother write her name on her son's heart? She probably did it little by little, with small everyday gestures of love towards Sammy since the day he was born. That is what makes this seal so strong!

Sometimes, to say goodbye to someone, it is nice to also thank them for all the love that they have given us.

- We invite you to think about those moments throughout your life when that dear person gave you their love and how they did it.
- Would you like to thank them for writing their name in your heart with all that love? Perhaps you could write something to them, draw, sing, or find your own way of saying thanks?
